Independent Auditor's Report

To the Board of Education of
Seymour Community School District:

I have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Seymour Community School District, Seymour, Iowa, as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Seymour Community School District at June 30, 2011, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, I have also issued my report dated August 31, 2011 on my consideration of Seymour Community School District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of my audit.

Management's Discussion and Analysis and Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 3 through 9 and 35 through 38 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Seymour Community School District's basic financial statements. I previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the nine years ended June 30, 2010 (which are not presented herein) and expressed an unqualified opinion on those financial statements. Other supplementary information included in Schedules 1 through 6, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in my audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

August 31, 2011

MANAGEMENT'S DISCUSSION AND ANALYSIS

Seymour Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2011. I encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2011 FINANCIAL HIGHLIGHTS

- General Fund revenues increased from \$2,531,939 in fiscal 2010 to \$2,732,908 in fiscal 2011, while General Fund expenditures decreased from \$2,696,647 in fiscal 2010 to \$2,417,437 in fiscal 2011. The District's General Fund balance increased from \$(32,586) in fiscal 2010 to \$282,885 in fiscal 2011.
- The increase in General Fund revenues was attributable to an increase in property taxes and State aid in fiscal 2011. These increases offset the decrease in federal aid. The decrease in General Fund expenditures was due primarily to a reduction in personnel for fiscal year 2011.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Seymour Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Seymour Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Seymour Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Other Supplementary Information provides detailed information about the non-major governmental Funds.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets - the difference between the District's assets and liabilities - are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Fund, one type of proprietary fund, is the same as its business type activities but provides more detail and additional information, such as cash flows. The District's Enterprise Fund is the School Nutrition Fund.

The required financial statements for proprietary funds include a statement of net assets, a statement of revenues, expenses and changes in fund net assets and a statement of cash flows.

- 3) *Fiduciary fund:* The District is the trustee, or fiduciary, for assets that belong to others. The fund includes the Private-Purpose Trust.

- Private-Purpose Trust Fund – The District accounts for outside donations for scholarships for individual students in this fund.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary net assets and a statement of changes in fiduciary net assets.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-1 below provides a summary of the District's net assets at June 30, 2011 compared to June 30, 2010.

Figure A-1
Condensed Statement of Net Assets
(Expressed in Thousands)

	Governmental Activities		Business Type Activities		Total District		Total Change
	June 30,		June 30,		June 30,		June 30,
	2011	2010	2011	2010	2011	2010	2010-2011
Current and other assets	\$ 2,538	2,150	27	21	2,565	2,171	18.15%
Capital assets	997	1,049	12	11	1,009	1,060	-4.81%
Total assets	3,535	3,199	39	32	3,574	3,231	10.62%
Long-term liabilities	32	100	-	-	32	100	-68.00%
Other liabilities	1,691	1,635	8	6	1,699	1,641	3.53%
Total liabilities	1,723	1,735	8	6	1,731	1,741	-0.57%
Net assets:							
Invested in capital assets, net of related debt	997	964	12	11	1,009	975	3.49%
Restricted	618	592	-	-	618	592	4.39%
Unrestricted	198	(92)	19	15	217	(77)	383.12%
Total net assets	1,813	1,464	31	26	1,844	1,490	23.76%

The District's combined net assets increased by nearly 24% or approximately \$353,000, from the prior year. The largest portion of the District's net assets is invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with resources other than capital assets.

Restricted net assets represent resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net assets increased approximately \$20,000 or 4%, over the prior year. The increase was primarily categorical funding.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements - increased approximately \$294,000. This increase in unrestricted net assets was primarily a result of an increase in State Aid during the current year and an emphasis to reduce spending.

Figure A-2 shows the change in net assets for the year ended June 30, 2011 compared to the year ended June 30, 2010.

Other expenses	143	164	-	-	143	164	-12.80%
Total expenses	2,733	3,040	120	119	2,853	3,159	-9.69%
Increase (decrease) in net assets	348	(171)	5	5	353	(166)	-
Net assets beginning of year, as related	1,465	1,635	26	21	1,491	1,656	-9.96%
Net assets end of year	1,813	1,464	31	26	1,844	1,490	23.76%

In fiscal 2011, property tax and unrestricted state grants account for 61% of the revenue from governmental activities while charges for service and operating grants and contributions account for 100% of the revenue from business type activities.

The District's total revenues were approximately \$3.206 million of which, \$3.081 million was for governmental activities and \$125,000 was for business type activities

As shown in Figure A-2, the District as a whole experienced a 7.1% increase in revenues and a 9.7% decrease in expenses. Property taxes increased \$126,000 and unrestricted state aid increased \$12,000. Expenditures decreased in every functional area because of emphasis on reduced spending.

Governmental Activities

Revenues for governmental activities were \$3,080,772 and expenses were \$2,748,325 for the year ended June 30, 2011. The District was able to balance the budget because of an emphasis to reduce spending the 2010-2011 school year.

The following table presents the total and net cost of the District's major governmental activities, instruction, support services, non-instructional programs and other expenses, for the year ended June 30, 2011 compared to the year ended June 30, 2010.

Figure A-3
Total and Net Cost of Governmental Activities
(Expressed in Thousands)

	Total Cost of Services			Net Cost of Services		
	Change			Change		
	2011	2010	2010-2011	2011	2010	2010-2011
Instruction	\$1,711	1,900	-9.95%	1,100	1,339	-17.85%
Support services	879	976	-9.94%	856	906	-5.52%
Non-instruction	-	-	-	-	-	-
Other expenses	143	164	-12.80%	34	56	-39.29%
Total	2,733	3,040	-10.10%	1,990	2,301	-13.52%

For the year ended June 30, 2011:

- The cost financed by users of the District's programs was \$122,539.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$619,562.
- The net cost of governmental activities was financed with \$1,501,658 in property and other taxes and \$751,141 in unrestricted state grants.

Business Type Activities

Revenues for business type activities during the year ended June 30, 2011 were \$125,712, representing a .8% increase over the prior year, while expenses totaled \$120,338 a 1% increase over the prior year. The District's business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

During the year ended June 30, 2011, the District maintained meal prices.

INDIVIDUAL FUND ANALYSIS

As previously noted, Seymour Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balances of \$848,366, above last year's ending fund balances of \$515,919.

Governmental Fund Highlights

- The District's improving General Fund financial position is the result of increased State aid, reduction in personnel and an emphasis to reduce spending in every area.
- The Capital Projects Fund balance increased from \$348,443 in fiscal 2010 to \$372,969 in fiscal 2011. Monies were transferred from capital projects fund to Debt Service Fund to pay required bond payments. The district collected \$20,000 more in local option sales tax in fiscal 2011 than in fiscal 2010.

Proprietary Fund Highlights

School Nutrition Fund net assets increased from \$25,922 at June 30, 2010 to \$31,296 at June 30, 2011, representing an increase of approximately 21%. The District has controlled costs of the program.

BUDGETARY HIGHLIGHTS

The District's total revenues were \$184,033 less than total budgeted revenues, a variance of 5.7%. The most significant variance resulted from the District receiving less State aid than originally anticipated.

Total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year. For fiscal 2011 there was an emphasis to reduce spending in every area.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2011, the District had invested approximately \$.997 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-4) This represents a net decrease of 2% from last year. More detailed information about the District's capital assets presented in Note 5 to the financial statements. Depreciation expense for the year was \$95,088.

The original cost of the District's capital assets was approximately \$2.63 million. Governmental funds account for approximately 2.61 million, with the remainder of approximately \$.03 million accounted for in the Proprietary, School Nutrition Fund.

Total	997	1,049	11	11	1,008	1,060	-4.91%

Long-Term Debt

At June 30, 2011, the District had \$0 in general obligation debt outstanding. This represents a decrease of approximately 100% from last year. Additional information about the District's long-term debt is presented in Note 6 to the financial statements.

The Constitution of the State of Iowa limits the amounts of general obligation debt districts can issue to 5 percent of the assessed value of all taxable property within the District. The District's outstanding general obligation debt is significantly below its constitutional debt limit of approximately \$4.07 million.

Figure A-5

2011	2010	
General obligation bonds	\$ - \$85,000	100%

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Wayne County has advised the District that due to revised valuations the District's total taxable valuation will go up 4.2 million for property tax collected in fiscal 2012. The property tax levy remained constant for fiscal year 2012. This will generate an additional \$66,000 in property tax revenue.
- For fiscal 2012 one certified staff position was eliminated (due to retirement) and one non-certified staff member will not be replaced. The district will no longer provide family health insurance, to those employees receiving full family health insurance. The District will provide single health insurance. These changes will result in savings of \$79,000.
- The District continues to operate on a year-to year collective agreement with the Seymour Education Teachers' Association. Recent negotiated settlements were 1.24% for fiscal 2011.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mollie Banks, District Secretary/Treasurer and Business Manager, Seymour Community School District, Seymour, Iowa 52590.

SEYMOUR COMMUNITY SCHOOL DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2011

Net change in fund balances-total governmental funds (pg. 19)

***Amounts reported for governmental activities in the
Statement of Activities are different because:***

\$ 332,447

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Activities and are allocated over the estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:

Capital outlays	42,579	
Depreciation expense	(95,088)	(52,509)

Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Assets.

85,000

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.

354

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds

(17,151)

Change in net assets of governmental activities (pg. 14)

\$ 348,141

SEYMOUR COMMUNITY SCHOOL DISTRICT
Notes to Financial Statements
June 30, 2011

(1) Summary of Significant Accounting Policies

Seymour Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the Cities of Seymour and Promise City, Iowa, and the predominate agricultural territory in Wayne and Appanoose Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Seymour Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Seymour Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organization – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Wayne County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements – The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in the following categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvements of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets not meeting the definition of the preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Project Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Debt Service Fund is utilized to account for the payment of interest and principal on the District's general long-term debt.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities, and other capital assets.

The District reports the following major proprietary fund:

The Enterprise, School Nutrition Fund is used to account for the food service operations of the District.

The District also reports fiduciary funds which focus on net assets and changes in net assets. The District's Fiduciary fund includes the following:

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

The proprietary fund of the District applies all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1 ½ % per month penalty for delinquent payments; is based on January 1, 2009 assessed property valuations; is for the tax accrual period July 1, 2010 through June 30, 2011 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2010.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture and equipment are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$5,000
Buildings	5,000
Improvement other than buildings	5,000
Intangibles	25,000
Furniture and equipment:	
School Nutrition Fund equipment	1,000
Other furniture and equipment	5,000

Capital assets are depreciated using the straight line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives (In Years)
Buildings	40 years
Improvements other than buildings	20-40 years
Furniture and equipment	5-15 years

Salaries and Benefits Payable – Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Assets consists of succeeding year property tax receivable and income surtax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences – District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2011. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

Long-term liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which can be used only for specific purposes determined pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Unassigned – All amounts not included in other spendable classifications.

Restricted Net Assets – In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

(2) Cash and Pooled Investments

The District's deposits in banks at June 30, 2011 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investments trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2011, the District had investments in the Iowa Schools Joint Investment Trust Direct Government Obligations Portfolio which are valued at an amortized cost of \$24,058, pursuant to Rule 2a-7 under the Investment Company Act of 1940.

Credit risk - The investments in the Iowa Schools Joint Investment Trust were both rated Aaa by Moody's Investors Service.

(3) Interfund Transfers

The detail for interfund transfers for the year ended June 30, 2011 is as follows:

<u>Transfer to</u>	<u>Transfer from</u>	<u>Amount</u>
Debt Service	Capital Projects	<u>\$89,677</u>

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

(4) Iowa School Cash Anticipation Program (ISCAP)

The District participates in the Iowa School Cash Anticipation Program (ISCAP). ISCAP is a program of the Iowa Association of School Boards and is designed to provide funds to participating entities during periods of cash deficits. ISCAP is funded by a semiannual issuance of anticipatory warrants. The warrant sizing of each school corporation is based on a projection of cash flow needs during the semiannual period. Bankers Trust Co. NA is the trustee for the program.

The District pledges its state foundation aid payments and General Fund receipts as security for warrants issued. Repayments must be made when General Fund receipts are received. The District must make minimum warrant repayments on the 25th of each month immediately following the final date the warrant proceeds may be used in an amount equal to 25% of the warrant amount. The interest rate on the Series 2010-11A warrants is 1.20% plus the one-month LIBOR rate, adjusted daily. The interest rate on the Series 2010-11B warrants is a variable rate, calculated daily based upon the LIBOR rate plus 120 basis points. A summary of the District's ISCAP activity for the year ended June 30, 2011 is as follows:

Series	Warrant Date	Final Warrant Maturity	Balance Beginning of Year	Advances Received	Advances Repaid	Balance End of Year
2010-11A	06/30/10	06/23/11	\$ -	250,000	250,000	-

During the year ended June 30, 2011, the District paid \$424 of interest on the ISCAP warrants.

(5) Capital Assets

Capital assets activity for the year ended June 30, 2011 was as follows:

	Balance beginning of year	Increases	Decreases	Balance end of year
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 3,150	-	-	3,150
Total capital assets not being depreciated	3,150	-	-	3,150
Capital assets being depreciated:				
Buildings	2,013,390	-	-	2,013,390
Improvements other than buildings	-	-	-	-
Furniture and equipment	547,440	42,579		590,019
Total capital assets being depreciated	2,560,830	42,579		2,603,409
Less accumulated depreciation for:				
Buildings	1,132,965	44,925	-	1,177,890
Improvements other than buildings	-	-	-	-
Furniture and equipment	381,731	50,163		431,894
Total accumulated depreciation	1,514,696	95,088	-	1,609,784
Total capital assets being depreciated, net	1,046,134	(52,509)	-	993,625
Governmental activities capital assets, net	1,049,284	(52,509)	-	996,775
Business type activities:				
Furniture and equipment	19,530	4,124	-	23,654
Less accumulated depreciation	8,973	2,831	-	11,804
Business type activities capital assets, net	10,557	1,293	-	11,850

Depreciation expense was charged to the following functions:

Support services:	
Operation and maintenance	51,800
Transportation	43,288
	<hr/>
Total depreciation expense - governmental activities	95,088
	<hr/>
Business type activities:	
Food service operations	2,831
	<hr/>

(6) Long-Term Liabilities

Changes in long-term liabilities for the year ended June 30, 2011 are summarized as follows:

	Balance Beginning of Year	Additions	Reductions	Balance End of Year	Due Within One Year
General obligation bonds	\$85,000	-	85,000	-	-

(7) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement Systems (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.50% of their annual covered salary and the District is required to contribute 6.95% of annual covered salary. Contribution requirements are established by state statute. The District's contributions to IPERS for the years ended June 30, 2011, 2010 and 2009 were \$174,236, \$191,518 and \$181,717, respectively, equal to the required contributions for each year.

(8) Other Postemployment Benefits (OPEB)

Plan Description- The District operates a single-employer retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 26 active and 1 retired members in the plan. Retired participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a fully-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

Funding Policy – The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation – The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statements No. 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2011, the amount actually contributed to the plan and changes in the District's OPEB obligation:

Annual required contributions	\$18,113
Interest on net OPEB obligation	383
Adjustment to annual required contribution	<u>(1,345)</u>
Annual OPEB cost	17,151
Contributions made-implicit	-
Increase in net OPEB obligation	<u>17,151</u>
Net OPEB obligation beginning of year	<u>15,329</u>
Net OPEB obligation end of year	<u>32,480</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2010. The end of year OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2011.

For the year ended June 30, 2011, the District contributed \$211,227 to the medical plan. Plan members eligible for benefits contributed \$58,735, or 22% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2011 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2010	\$16,821	8.87%	\$15,329
June 30, 2011	17,151	-	32,480

Funded Status and Funding Progress – As of July 1, 2010, the most recent actuarial valuation date for the period July 1, 2010 through June 30, 2011, the actuarial accrued liability was \$154,789, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$154,789. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$1,314,000 and the ratio of the UAAL to covered payroll was 12%. As of June 30, 2011, there were no trust fund assets.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of July 1, 2010 actuarial valuation date the unit credit actuarial cost method was used. The actuarial assumptions includes a 2.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 6%. The ultimate medical trend rate is 6%.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2009 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2009.

The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(9) Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(10) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the Area Education Agency. The District's actual amount for this purpose totaled \$108,278 for the year ended June 30, 2011 and is recorded in the General Fund by making a memorandum adjusting entry to the cash financial statements.

(11) Accounting Change/Restatement

Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, was implemented during the year ended June 30, 2011. The effect of fund type reclassifications is as follows:

	Capital Projects	Special Revenue, Physical Plant and Equipment Levy
Balances June 30, 2010, as previously reported	\$341,389	\$7,054
Change in fund type classification per implementation of GASB Statement No. 54	7,054	(7,054)
Balances July 1, 2010, as restated	348,443	-0-

(12) Subsequent Event

On July 14, 2011 the District received an Agreed-Upon Procedures Report of a special investigation done by TD & T Financial Group, P.C. of the Student Activity Fund for the period July 1, 2009 through December 31, 2010. The investigation was requested by officials of the Seymour Community School District and dealt with the handling of cash collections by a District employee. The special investigation identified an instance where the employee replaced cash with a personal check and instances where cash receipts were not deposited at the bank in the order that they were received. A copy of the report is available on the Auditor of State's website.

SEYMOUR COMMUNITY SCHOOL DISTRICT
Notes to Required Supplementary Information – Budgetary Reporting
Year Ended June 30, 2011

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula.

Independent Auditor's Report on Internal Control
Over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Board of Education of
Seymour Community School District:

I have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Seymour Community School District as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued my report thereon dated August 31, 2011, I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Seymour Community School District's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing my opinion on the effectiveness of Seymour Community School District's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of Seymour Community School District's internal control over financial reporting.

My consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, I identified certain deficiencies in internal control over financial reporting I consider to be material weaknesses and other deficiencies I consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. I consider the deficiencies in internal control described in Part II of the accompanying Schedule of Findings and Questioned Costs as items II-A-11 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Seymour Community School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, I noted certain immaterial instances of non-compliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2011 are based exclusively on knowledge obtained from procedures performed during my audit of the financial statements of the District. Since my audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Seymour Community School District's responses to findings identified in my audit are described in the accompanying Schedule of Findings and Questioned Costs. While I have expressed my conclusions on the District's responses, I did not audit Seymour Community School District's responses and, accordingly, I express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Seymour Community School District and other parties to whom Seymour Community School District may report, including federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

I would like to acknowledge the many courtesies and assistance extended to me by personnel of Seymour Community School District during the course of my audit. Should you have any questions concerning any of the above matters, I shall be pleased to discuss them with you at your convenience.

August 31, 2011

SEYMOUR COMMUNITY SCHOOL DISTRICT
Schedule of Findings and Questioned Costs
Year ended June 30, 2011

Part I: Summary of the Independent Auditor's Results

- (a) An unqualified opinion was issued on the financial statements.
- (b) Reportable conditions in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any noncompliance which is material to the financial statements.

Part II: Findings Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCIES:

II-A-11 Segregation of Duties – One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. Cash receipts are issued and bank deposits are prepared by the same person. An independent person does not open the mail and prepare an initial listing of the checks received and later compare the listing to the receipts issued. Also, vouchers are processed, disbursements are recorded, and checks are prepared by the same person.

Recommendation – I realize segregation of duties is difficult with a limited number of office employees. However, the District should review its operating procedures to obtain the maximum internal control possible under the circumstances.

Response – We will continue to review our procedures and implement additional controls where possible.

Conclusion – Response accepted.

INSTANCES OF NON-COMPLIANCE:

No matters were reported

Part III: Findings and Questioned Costs for Federal Awards:

Not applicable since less than \$500,000 in federal awards.

Other Findings Related to Statutory Reporting:

IV-A-11 Certified Budget – Disbursements for the year ended June 30, 2011 did not exceed the certified budget.

IV-B-11 Questionable Expenditures – No expenditures were noted that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.

IV-C-11 Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-11 Business Transactions – No business transactions were noted between the District and District officials or employees.

IV-E-11 Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.

IV-F-11 Board Minutes – No transactions were noted requiring Board approval which had not been approved by the Board.

IV-G-11 Certified Enrollment – No variances in the basic enrollment data certified to the Iowa Department of Education were noted.

IV-H-11 Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.

IV-I-11 Deposits and Investments – No instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

IV-J-11 Certified Annual Report – The Certified Annual Report was certified timely to the Iowa Department of Education.

IV-K-11 Categorical Funding – No instances of categorical funding being used to supplant rather than supplement other funds were noted.

IV-L-11 Statewide Sales and Services Tax – No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. For the year ended June 30, 2011, the District's financial activity and other required information for the statewide sales, services and use tax revenue are as follows:

Beginning balance		\$341,389
Statewide sales, services and use tax		161,022
Other receipts		7,042
Expenditures/transfers out:		
School infrastructure:		
Buildings	\$18,909	
Transportation equipment	32,490	
Transportation equipment		
Debt service for school infrastructure:		
General obligation debt	<u>89,677</u>	
		<u>(141,076)</u>
Ending balance		<u>368,377</u>

The statewide sales, services and use tax revenue received during the year ended June 30, 2011 is equivalent to a reduction in the following levies:

	Per \$1,000 of Taxable Valuation	Property Tax Dollars
Debt service levy	\$1.0999	\$89,677
Physical plant and equipment levy	.6304	51,399

IV-M-11 Student Activity Receipts – For several years, grants have been received from Wayne County Coalition to be used to introduce nutritional eating ideas into the curriculum.

Recommendation – The money was not co-curricular in nature and should be deposited into the General Fund or Nutrition Fund.

Response – We will take under advisement.

Conclusion – This has been the response of the District for several years.
